

Dear Homeowner/Resident

Compliments of the season to you.

New access control

We have started with the roll out of the new facial recognition access control system. This roll out is done in phases and as we move along to the different phases you will be personally notified by email. Please check your email and spam folders. Alternatively, please contact the office.

Speeding: Children & Animals

Please be aware of children and animals when you drive in the estate. During the last couple of months, a number of birds were killed by motorists. We request you not only to adhere to the required speed limits in the estate, but where necessary to reduce speed further to avoid any uncalled-for incidents.

Camaras

Our CCTV system records in a loop between +/- 4 and 7 days depending on which camera. If an incident has occurred and video footage is required, please contact the office ASAP to afford us the time to save the necessary footage. The applicable footage will be saved for review and only released when the applicable legal requirements have been met.

Kind regards

The Trustee Committee
Kleinbron Estate Homeowners Association
